Corporate Retainers & Managed Care

Through our service centers and innovative packages, Cardiocare and The Limi Hospital Group serves over a hundred (100+) corporate establishments, Charity/Faith-Based institutions, Schools, HMOs, International and Local Insurance companies, and Federal parastatals.

Corporate Retainers & Managed Care

- Over the years, Cardiocare and its parent company, The Limi Hospital Group, has developed an outstanding organizational competence and capacity to manage, deliver and cater for comprehensive, holistic health care as it relates to the different financing patterns particularly relating to
 - Corporate/company retainers, embassies,
 - Foreign/local agencies
 - health insurance and managed care models.
- Several customized health management platforms and financing models are available for different patient groups to ensure seamless healthcare provision.

Corporate Retainers & Managed Care

- Some individual/corporate institutional packages include but not limited to
 - preventive heart checkups,
 - diabetes checkup,
 - hypertension checkup, executive wellness check and
 - managed care discount plans have been set out in order to maximize quality and outcome while still making sure that all costs are well accounted for in line with standard treatment algorithms.
- Prepaid retainership plans are also available for individuals and companies (called *HealthCova*).
 - This package gives all round access to specialists - online and in-person, with remarkable giveaways and amazing discounts
 - So you don't have to pay for services at the point of need.

“

Everyone does not
need to go abroad for
healthcare,
Cardiocare is here!

”

Modelling & Training

Beyond the rigorous training of her own staff, the Cardiocare Hospital extends her rich array of expertise in multiple areas of medicine to the entire medical community and the larger populace.

Continuous Learning and Professional Development

Cardiocare has placed her people at the center of its unique service advantage through a dedicated and expansive human resource strategy that is centered on finding and equipping healthcare professionals with a genuine heart for others.

However, beyond being motivated by the well-being of others, is a deliberate learning organization that focuses her efforts on training and retraining based on client feedback, current scientific evidence and world class practices.

Training & Advocacy

Cardiocare and her affiliated hospitals organize novel, highly acclaimed MDCN-accredited CPD symposia with locally adapted guidelines and practical pointers to attendees.

1. Annual Abuja Cardiovascular Symposia
2. Annual Abuja Paediatric Symposia
3. Cardiocare Webinar Series

Advocacy also stretches beyond the medical community to the populace by:

1. Social Media
2. Engagement of other Stakeholders

Intra- CardioCare

Collaboration with Public Institutions,
Device Manufacturers and Professional
Societies

1. Residents
2. Fellows
3. Allied Cardiac Health Professionals

Post-CardioCare

1. Referral Feedback and partnership with local and international medical community
2. Research Collaboration
